EXPLANATION OF CODING SYSTEM FOR HANDICAPPED AND SPECIAL EDUCATION

The coding system is a combination of the Office of Education Curriculum Codes and ERIC descriptors. It was devised by staff at the Center for Studies in Vocational and Technical Education.

19.12.14/450

19. The first two digit code "19" is the Office of Education code for handicap. All materials in the publication will begin with 19 since they all pertain to handicapping conditions.

.12 The second two digit code ".12" indicates the skill area and in this example ".12" refers to Business/Office Occupations.

.14 The third two digit code ".14" indicates the type of handicap, and in this example ".14" refers to Mental Retardation.

450 The three digit code "450" indicates the type of material, and in this example "450" refers to Research. This three digit code is derived from the ERIC descriptor group codes.

The selection 19.12.14/450 pertains to handicapped, business, mentally retarded and research materials.

In addition to the interview with Julius Kellogg, the film also describes the process of rehabilitation and provides insight into the feelings of persons who have been injured and the emotional conflicts involved in the rehabilitation process.

A LITTLE SLOW. 16 mm, color, 20 min; n.d.; Association-Sterling Films, 600 Grand Avenue, Ridgefield, NJ 07657; free loan. In this film the viewer sees through the eyes of a mentally retarded adult. The viewer learns of his needs and desires and learns that they are the same as those of the non-retarded. The film also points up the fact that the distinguishing characteristic of a retarded person is that he or she is a little slower intellectually than the rest of society. The film also portrays some of the stereotypic attitudes held by non-retarded people which hinder the retarded from experiencing the full range of what life has to offer.

CIPHER IN THE SNOW. 16 mm, color, 25 min; brigham Young University Educational Media Services, 290 Harold R. Clark Building, Provo, UT 84601; n.d.; rental $14.00, purchase $265.00 (film), $185 (U-Matic Video Tape); n.d. This film intends to make students teachers, and other adults aware of the importance of a worthwhile self-concept. The film demonstrates this through the story of a boy named Cliff. It shows how Cliff's fears and anxieties about the divorce of his parents were reflected in his work at school and resulted in his teachers labeling him a slow learner who was unmotivated. Cliff began to believe that he was no better than what his teachers, parents, and peers thought he was, and this belief had very detrimental effects on his functioning.

The production stresses what it calls the four "R's": (1) realism, (2) reward, (3) recognition, and (4) responsibility.

WISCONSIN VOCATIONAL STUDIES CENTER

The Wisconsin Vocational Studies Center at the University of Wisconsin-Madison was reorganized with the support of the Wisconsin Board of Vocational, Technical and Adult Education within the School of Education in 1971. The function of the Center is to serve the State of Wisconsin in a unique way by bringing the resources of the University to bear on identified problems in the delivery of vocational and manpower programs—vocational education, technical education, adult education, career education, manpower training—to citizens of all ages in all communities of the State. The Center focuses upon the delivery of services including analyses of need, target groups served, institutional organization, instructional and curriculum methodology and content, labor market needs, manpower policy, and other appropriate factors. To the extent that these goals are enhanced and the foci of problems widened to encompass regional and national concerns, the Center engages in studies beyond the boundaries of the State.
